Sample Agency Questionnaire for Potential New Interchanges

Statewide Interchange Study

Local Representative Questionnaire
POTENTIAL NEW INTERCHANGE

**I-164 & Millersburgh Road
(Vanderburgh County)**

Name of person completing the questionnaire:	
Agency Affiliation/Title:	
Full Address:	
Phone (including area code):	
E-mail Address:	

QUESTIONS

1.	Has the potential new interchange location ("project") received planning support, such as inclusion in a local or regional transportation plan? If so, please provide any details associated with the plan description, including purpose and need. (Please attach any documents if preferred.)

2. Does the potential project have regional or national significance? Please describe.

3. Describe what you foresee as the objectives of the project including whether it is part of a larger system of projects.

4. Describe potential economic benefits associated with completion of the project (include benefits to job creation/retention, economic distress relief, tourism, commerce, etc. if applicable). Are there any brownfields in the project area?

5. Describe any known environmental benefits or impacts associated with completion of the project, such as diverting existing traffic from an environmentally sensitive area (historic area, residential area, etc.).

6. Describe any congestion mitigation benefits associated with completion of the project. (This would include items such as reduction in congestion on other streets or reduction in congestion at other interchanges.)

7. Describe any safety benefits associated with completion of the project. (Keep in mind safety issues such as those related to this route, to alternate routes, to pedestrians and cyclists, and to truck traffic.)

8. Describe any benefits to energy efficiency that could be associated with completion of the project, such as more direct access to industrial and/or high truck traffic areas.

9. Has the potential project encountered, or is it likely to encounter, any significant opposition or other obstacles based on environmental or other types of concerns? Describe. Have any environmental studies been completed in the project area?

10. What is the proposed/desired schedule to complete the project and is the schedule based on implementation of a comprehensive plan, other transportation facility improvements or land use development?

11. Do the surrounding communities and affected areas support this project? How does this project rank in importance with other proposed/current projects in the area?

12. Are there any intergovernmental agreements that exist for projects in your area? Will they affect this project in any way?

13. Are there any non-INDOT funding sources that would be available for this project?

More Comments If you have any additional comments or information that you feel is applicable to this project and that will help to justify the need for the potential interchange please provide that here or in attachments.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

Please provide any quantitative data that further illustrates the benefits of the project or provides justification for why the project is needed.

MAILING INFORMATION
